

#CXL2-500 LOG SET

NOTE: Log numbers are located on the bottom of each log. Refer to the following instructions and illustrations for proper log placement.

CAUTION: Do not place logs directly over burner port holes. Improper log placement may affect flame appearance and may cause excessive soot to build upon the glass.

1. Position the ember panel 2CX in front of the burner.
2. Align the holes in bottom of logs 1CX, 3CX, and 4CX with the mounting on the burner. Push logs down onto the pins to seat.
3. Align logs 5CX and 8CX with the notches on the base logs.
4. Position logs 6CX and 7CX as shown.
5. Distribute rockwool embers onto the logs and burner using a stiff bristle brush.
