

## TECHNICAL BULLETIN 2010-04

### Summary of Honeywell Valve Replacement Kits

#### Honeywell Vented Millivolt Valve Conversions to SIT Valve

There were several repair kits released in 2006 for replacing Honeywell **Millivolt** Valves 10001782 (natural gas) and 10001759 (propane) on various Majestic and Vermont Castings Gas Units. These kits all include the appropriate fuel SIT Valve with all brackets, hardware and piezo igniter parts needed to do a complete replacement of the Honeywell **Millivolt** Valve. See the list below.

Item Number	Description
20010680	RP 269 Honeywell to SIT Conversion Stardance & Radiance DV LP
20010684	RP 270 Honeywell to SIT Conversion Stardance & Radiance NV LP
10008800	RP 272 Honeywell to SIT Conversion LHE Series NG
10008893	RP 272 Honeywell to SIT Conversion LHE Series LP
20010811	RP 275 Honeywell to SIT Conversion Stardance & Radiance DV NG
20010812	RP 276 Honeywell to SIT Conversion Stardance & Radiance NV NG

#### Stardance & Radiance Honeywell Vent-Free Millivolt Valve Conversions to SIT Valve

When existing inventory of the Honeywell **Vent-Free** Millivolt Valves is used up, direct field replacements of these valves will no longer be possible. MHSC has made available complete burner engines for field service on older units where the valve has failed. These kits include a rating plate and a new manual. These kits will work only on Stardance and Radiance Vent-Free units with drop-in burners. The part numbers for these items are listed below.

Item Number	Description
30005086	RUVSOD RADIANCE UV NG BURNER REPLACEMENT
30005087	RUVSOD RADIANCE UV LP BURNER REPLACEMENT
30005088	STARDANCE UV NG BURNER REPLACEMENT
30005089	STARDANCE UV LP BURNER REPLACEMENT

**Stardance & Radiance Honeywell Radio Frequency Valve Conversions to SIT RCSITEA Multi Function System**

MHSC no longer has replacement Honeywell Radio Frequency Valves or Remote transmitters. Replacement kits have been designed for the units in the field that had the Radio Frequency Comfort Control System installed and now have valve failure. When installed, the units will be the same as the current Vermont Castings Radiance RADVTC and Stardance SDDVTC models. The kits include the NG control plate assembly (valve, pilot etc.), new rear shroud with junction box, new fan assembly, remote control, new rating label, instructions and current manual. For LP, a conversion kit needs to be ordered as well. See below for a list of all the kits.

Item Number	Part Description
30005104	Radiance RADVTC NG Burner Replacement Kit
30005105	Stardance SDDVTC NG Burner Replacement Kit
20300165	Radiance RADVTC NG to LP Conversion Kit
20300126	Stardance SDDVTC NG to LP Conversion Kit

**Discontinued CFM Fireplaces Using Honeywell Radio Frequency Valve Conversions to SIT RCSITEA Multi Function System**

Replacement kits have been designed for discontinued CFM gas units in the field that had the Radio Frequency Comfort Control System installed and now have valve failure. MHSC has designed the kits for only the model listed below. The kits include a valve, valve bracket if needed, pilot assembly, pilot bracket if needed, remote control with receiver, piezo igniter with bracket and instructions. See below for a list of the kits.

Item Number	Part Description
20301078	DV360RFN / DV580RFN / DVRT36RFN / DVB4136RFN RF to RCSITEA Conversion
20301079	DV360RFP / DV580RFP / DVRT36RFP / DVB4136RFP RF to RCSITEA Conversion
20301076	36XDVRFN RF to RCSITEA Conversion
20301077	36XDVRFP RF to RCSITEA Conversion
20301080	RFSDV34RFN RF to RCSITEA Conversion
20301081	RFSDV34RFP RF to RCSITEA Conversion
20301208	LHEC20/30RFN / LHECDV20/30RFN RF to RCSITEA Conversion
20301209	LHEC20/30RFP / LHECDV20/30RFP RF to RCSITEA Conversion
