HEAT-CIRCULATING
WOOD-BURNING
FIREPLACE

*Now's the time to
warm up your life
with a beautiful
fireplace*

It's a dream for many of us. A home with a beautiful fireplace where you can enjoy some of life's most precious moments in front of a cozy fire.

Now that dream can come true with an SE36 heat-circulating wood-burning fireplace. This stylish, superbly well designed unit will add value and more than a touch of warmth and beauty to your home.

In addition to a wide choice of easy-to-install brass trims and decorative contours, the SE36 comes with many outstanding features, including an ultra realistic refractory interior, a deep firebox, and a large opening for an optimal view of the flames.

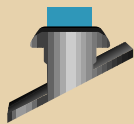

Best of all, the SE36 is engineered for the easiest possible installation, making it the ideal choice for new construction and renovation projects alike. 

SE36

HEAT-CIRCULATING WOOD-BURNING FIREPLACE

The SE36 comes with a rigid firescreen and bi-fold doors with tempered glass.
